Jana

The windows are open A New Hope gate is in place the bright morning star is rising in the hearts of the Saints. The rainbow Angel has much to say. Living Stones being built one upon another, the lines of inheritance go out to sisters and brothers. a reconnection to Redemption of time. Back into the library for rewriting history to the original design.

Much revelation will unfold some of it history for the future gold. These here Will not be ignoring. the Bowls are feeling up and all of creation is Waiting for the bowls to be poured. A rewriting from the books to the tablets of the hearts. This is where wisdom and Truth will align a path of righteousness for a recreation design.

---

Rainbow Angel

Jana

Kadosh, kadosh, kadosh. You're standing in the gates of Jerusalem. Kadosh, kadosh, kadosh, glorious, holy, holy, holy.

You set a foundation for the sons of god to be revealed the truth is that all of creation yields so that you will be real. Creation waits for uncorrupted light, a new hope gate to embrace the original design. Every dot and tiddle is aligned to your song, the original intent before the corrupted fall. The frequencies will align the true light from the seat of the heart of the glory within you will be defined the glory will teach you to acclimate to truth, not to align to a way of a world view, get the proof. A time line exists because of the cross history before, the correction after nothing really is lost. The evidence of things unseen, the letter to the sound, to the light, and colors redeems. You all are miners for a heart of gold, it is a fine line to align by the image of Christ that is known. As this revelation will grow so that the evidence will increase and your realm of influence will be effected as glory brings the increase. His name says more than first believed the power of His name is released from a heart that believes. You go in to go up. Be prepared to change because you haven't been here before, don't shrink back, there is evidence to gain.

Picture: everyone is carrying flashlights, like ironman, in their hand.

Prayers:

I renounce and repent for not understanding that my sin and the sin of my generational line has caused a negative effect on creation and on light, corruption the wonderful creation of our God.

On behalf of myself and my generational line, I repent for not taking responsibility for your creation law.

On behalf and my family line and myself I repent for abusing the position of creator with Christ and for my contribution to contamination of you Lord and Your truth.

I repent and renounce on behalf of myself and my generational line for all that has resulted in contamination of Gods light.

Lord I renounce and repent for myself and my generational line for all of us who relaxed the least of your commandment, including your creation laws and taught them to others so they would do the same. I repent for not living in righteousness of God but choosing to be like the scribes and the Pharisees.

I renounce and repent for all my family line who did not take responsibility for caring for the earth but because of our disobedience the earth became cursed. Lord I repent for myself  
For every instance where we were not our brothers, therefore we prevented the land from yielding its strength to us.

I repent and renounce for myself and my ancestor's, for our participation of binding the corruption of creation in heavenly places and sowing disorder in the heavenly places, thus reaping back to the physical creation of that corruption.  
I especially repent for all those on my generational line for idolatrous worship of the cosmic entities.  
I repent and renounce for ignoring our responsibilities of sowing reaping, for what is sown in corruption is reaped in corruption. I repent for trading away future generations DNA and RNA to the fallen elemental principles of the world.
