Mazzaroth

See Glory of Zion Website

2 Kings 23:5

⁵ Then he removed the idolatrous priests whom the kings of Judah had ordained to burn incense on the high places in the cities of Judah and in the places all around Jerusalem, and those who burned incense to Baal, to the sun, to the moon, to the constellations (Mazzaroth), and to all the host of heaven.

September 26, 2012

Tonight I first felt the Mazzaroth as a spiritual being. The next day Linda C. called and said an angel was waiting for a meeting. He had a quill. Linda got the meeting was in Kaiser (king), symbolizing healing, and got it was time. Job 38:32 says "do you bring out Mazzaroth in 'it's right time.'" Rob Gross and I discussed this and first felt stars and then got word Mazzaroth.

At the youth group the following Thursday and a teen saw a person coming out of the mist (an intern on July 29, 2013 saw the mist) and it was a humanoid looking being on a high table.

That night I had a dream and I saw President Bush on a high table on the left hand side.

October 19, 2012

At the Kaneohe CUH we discovered the ungodly Mazzaroth. I remember my dream of seeing a high seating area like in Star Trek where Spock stood before the Vulcan council. I saw George Brush very anger looking down at a secretary. He was on the left hand side. Another person in the CUH also saw one on the left hand side. A person saw four seated, perhaps indicating NEWS. Are there Mazzaroth over cities, counties, nations. Perhaps they are the executive branch. Perhaps they are being revealed in His "Kairos time."

Michelle in Kaneohe

"I sat on the shoulders of two star beings who were in a "star chamber". I then saw a star council that had at least 5 star beings. One of the star beings removed its spectacles & I could see stars, planets, nebula & the universe through its eyes (or coming out of its eyes).

I then saw the Hawaiian Islands on a table with a flag or stake in it. The star council was meeting to discuss or decree the removal of spectacles off of the eyes of the people of Hawaii so they could 'see' clearly. The council then stated, "Honolulu will be a port to release My Glory. I then saw many sitting in canoes ready to ride out to the nations. Then boom, I saw a 3D grid all around them. I knew the grid needed to be cleansed so that it would become a highway for the heavenly places to come to Hawaii so we can carry heaven's Glory to the earth."

12 of us gathered after our morning service today to discuss Michelle's vision. I sensed that we needed to deal with the stronghold of idolatry in our community. All 12 of us repented for different forms of idolatry going on in our community so the grid would be cleansed.

Revelation 16:14 (NKJV)

¹⁴ For they are spirits of demons, performing signs, *which* go out to the kings of the earth and of the whole world, to gather them to the battle of that great day of God Almighty.

Ephesians 6:12 rulers

† **κοσμοκράτωρ.**

A rare and late word, whose history is hard to follow. It is relatively common in astrological writings, where it means the planets, orig. perhaps as the rulers of the heavenly spheres, then as the rulers of the universe who also ordain the destinies of men. It cannot be proved that this sense was already losing its prominence in the pre-Christian period.² Nor is it likely that the word was being used as an imperial title before the 3rd cent. A.D. Only later is the term used of the gods in the Gk. world (Orph. Hymn.), but from the standpoint of religious history this is the root of the concept.⁵ The term is also found in the mag. pap., Preis. Zaub., III, 135; IV, 166, 1599, 2198 f.; V, 400; XIII, 619; XVIIb, 1 (cf. IV, 1966 δέσποτα κόσμου), most frequently in address to Helios. The word does not occur in the LXX or Philo, but it passed as a loan word (קוזמוקראטור or קוזמקרטור) into Rabb. writings, and this shows that it must have been in common use.⁶¹

There are two more details about the Heavenly, the constellations / zodiac Mazzaroth

Psalm 19:1-6 they speak in every language

¹ Kittel, G., Bromiley, G. W., & Friedrich, G. (Eds.). (1964–). *Theological dictionary of the New Testament*. Grand Rapids, MI: Eerdmans.

The heavens speak and are heard in every language

Psalm 50: 1-6 They are witnesses to everything on earth

He summons the Heavens and earth so He may judge.

Jesus is judge over all of Heaven and earth.

They proclaim. (5046 NAGAD to announce by word of mouth, to tell, to speak, expose, predict)

The constellations, the MAZZAROTH are said to govern.

Deut 31:24-30 Moses call(s) Heaven and earth to testify against the elders and officers.

Deut 4:14-19 " all the Heavenly array " is translated " Heavenly army ".

Array is a military term. Jesus is their Captain

When I was at this point of study I asked the Lord, with so much good and authority and power

what is the evil counterpart, the perversion of these scriptures.

Astrology.

Astology is the evil Mazzaroth.

God warned them, and us, not to be so caught up in the stars and lights that they would bow down and worship them.

Then later He says, if you will not bow down and worship Me and Me only I will give you over to worship the sun and the moon and stars. Who of course cannot do what people ask.

Asking is significant because sometimes God didn't ie; help them to win a battle because they did not ask Him. No humility, no help. When people ask the stars what to do it is the demons listening and answering. The stars speak to the earth and to

people but they don't converse, they proclaim. They don't answer questions. They don't serve us. they exclusively serve God.

There is much, much more uncovered which I don't have time just now to include for that would not be a few pages. Abraham was an astrologer, the so called wise men from the East knew about the virgin royal birth 400 years beforehand by understanding the constellations.

They have intellect, a voice, they're multi lingual, and perceivably eyes and ears although none are mentioned and we only assume what we know. Our imaginations instead of being creative are surprised at this stuff. It does appear there are emotions but since they sing there could be emotions.

Each constellation shaped and named operates in that name which reveals their purpose and

each 'govern's a month, a season, each year. ie; there is a season, a month, for judgement. Judgement is in Libra, Tishri, the scales, the month of fruitfulness and Rosh Hashana when the people are judged.

The holy days and holidays and seasonal duties assigned to each month in the Bible coincide with the name of the constellation / zodiac present overhead, in position, in it's governing duty.

A1/ 4216 MAZZAROTH a distinct constellation or constellations; the 12 constellations, the zodiac.

2/ 4216 is rooted in 5144 NAZAR

this gets interesting:

NAZAR describes devotion, of a living behavior and divine purpose, and placement.

My own thoughts collected these words defining NAZAR and I understood the word NAZAR

reveals an intelligence, a soul of living beings placed literally in the 'sky' and in the constellations .

The created components of the Heavens were created by God to reveal Him in His seasons, His timing, His plans.

At this point, reading Strong's I saw :

an open night sky above the earth and in it were the lights He set in it and the lights are ' alive ' .

I saw ' shooting stars ' as if raining down and understood as I watched that the night sky was

- perceivably - breathing, in motion. It was as if in the dark navy blue black sky were small lighter

deep blue colored areas of individual circular motion. Like the motion of pinwheels. Circular.

Like the arrangements of heavenly bodies, they were 'placed'. The whole of the dark sky appeared

beautiful, vibrant and secure and purposeful just as our earthly landscape has stationary trees

across it and they are alive and in motion when the wind blows, but they're in place and don't travel

about the earth but travel 'on' the earth circling, in motion, around the sun.

MAZZAROTH is defined in original Hebrew text's as ' constellations '. The 2nd portion of

verse 32 in Job 38 mentions Arcturus (the Great Bear and it's cubs found in the constellation

Ursa Major).

On earth, also found in Job, God points to the mystery of when and why bears hibernate.

Like the constellations reveal God's seasons and appointed times in the supernatural realms

of His Heavens, so do His created counterparts in the natural realm on earth reveal seasons

and appointed times.

This truth is revealed as you study the counterparts on earth.

With regards to this verse, this chapter of Job, 38:32, God specifically points to the Great Bear

Arcturus. No wonder! The bear is a most beautiful lesson of everything divine and good of

God's self.

The answer to the mystery of Bears hibernation, birthing, and appointed time, and times is

incidentally, timed to a minute's space, inside of each year!

Now I know how precisely His timing is revealed above our heads, seen only at night.

Some science of observation in modern days right in our own Yosemite National Park

about 70 years ago, in the 1950's scientifically confirmed one facet, of this very verse, verse 32!

On earth as it is (already) in Heaven.

On earth there is evidence of God's love of His Bears, by witnessing His divine protection of

them in His arrangement of a precise appointed moment to hibernate. He brings out and

sends in Bears in their seasons on earth as He does in the Heavens.

I can give you more on that later if anyone's interested. I promise you it will make you swoon!

And then you will fall down in wonder and worship this Creator of Creation.

The zodiac is a design of God, a ' place in space' specifically over the earth to be visible

to everyone so we may be honored to watch the constellation (s) reveal God's plans.

To myself, I would go so far as to record that these constellations, which means "gathering of stars", or in modern language stars gathered.

Judges 5:20 (KJV) says the stars fight.

²⁰ They fought from heaven; the stars in their courses fought against Sisera.

Job 38:7 (KJV) they sing

⁷ When the morning stars sang together, and all the sons of God shouted for joy?

Psalm 136:9 (KJV) they rule -by night

⁹ The moon and stars to rule by night: for his mercy *endureth* for ever.

Psalm 147:4 (KJV) they have names

⁴ He telleth the number of the stars; he calleth them all by *their* names.

Psalm 148:3-4 (KJV) they praise Him

³ Praise ye him, sun and moon: praise him, all ye stars of light.

⁴ Praise him, ye heavens of heavens, and ye waters that *be* above the heavens.

Though some stars can only be seen in the Northern or Southern Hemisphere's, the

12 constellations of the zodiac can be seen in both hemisphere's. Though only 6 can be

seen at a time because as we rotate around the sun, the other 6 are too close to the sun

to be seen until we return in our orbiting experiencing a change of seasons here on earth.

Simply, we can see all 12 but only 6 at a time in different seasons.

This is why the 12 loaves on the alter were to be arranged 6 up and 6 down. (more later if

anyone is interested)

The behavior of the living constellation(s) is NAZAR : held aloof, it does not eat or drink or have

impurity, it is set aside, consecrated to divine purposes.

3/ Strong's suggests 5140 NAZAL is related to NAZAR.

That NAZAR is rooted in and comparable to NAZAR.

NAZAR - a high form of purity in devotion

NAZAL - means to drip, drop, flowing, pour down, running water

Theologians explanations of NAZAL is that NAZAL means raining as in raining rain, water.

That's not what the Lord is showing me.

I suspect something else is raining down, being poured down, at times only dripping.

I suspect the process of NAZAL may refer to the anointing.

I leave the conclusions, if there are any revealed to any of us, to the meditations and study

of this expanding subject of MAZZAROTH and particularly in it's context of Job 38

verse 32.

September 5, 2016 realized Mazzaroth is the righteous zodiac

October 23, 2016

Today at Mt. View the Lord showed the evil Mazzaroth when we were supposed to have a healing service. It seems that healing has been blocked by the ungodly Mazzaroth. Rob also noted that Mazzaroth is tied to rain. It rained in Hesperia .20 and it was not supposed to rain. There was lots of thunder and lightning like what happened in 2005 when the burning bush happened.

Persis had a word on rain before I left.

October 17, 2016

Persis

Is this the rain
Which brings refreshing as it comes
Fore telling of my goodness
And of things yet to come
Would you believe in miracles too
I have not forgotten my people who seek
Refreshing & righteousness
Justice & peace
I do hear your prayers
Dismayed I am not
For nothing, no nothing, can stop my great work
As my people are hitting the mark
With their prayers & declarations
Coming right from their hearts.
Persis
Who made them fall
Who made them sparkle
Just who made them all
They are intricately woven
Not one is alike
I love a rainy day
I love a rainy day
Look to the heavens from whence they come
Bringing revelation Bringing fun
My love I'll pour out
Just like raindrops falling from above
My people I'll bless
Restoring health Bringing rest
I love a rainy day
I love a rainy day.

Manazil and its connection to Mazzaroth

The development of Astronomy is believed to come from Babylonia around 1400-1000 B.C. with the **Ea-Anu-Enlil** tablets. Then came the records of celestial events and algebraic tables of celestial motions. The **zodiac** of Babylonia evolved around 420 B.C., before Berossos, Kidinnu, Naburiannu, and the Seleucid Babylonians appeared.

China projects 1400 B.C. for the beginning of eclipses, then comet records, Calendars, and star

catalogues. Some propose that they influenced Mexico.

Astronomy in Europe began around 600 through 300 B.C. with the pre-Socratic speculations, then Aristarchus (*heliocentric theory*), Eratostenes, Hipparchus and Ptolemy.

Ptolemy and Babylonia influenced the Arabs and India which led to the term *manazil*. The term *manazil* is an Arabic expression derived from an ancient Akkadian word that literally means '**Mansion**'. In Antiquity it was used in reference to the so-called '*night residences*' of the Moon and these '*signs*' formed the Semitic Lunar Zodiac consisting of **28 manazils**, each one being 12 degrees and fifty-one minutes wide.

Mansion or **mansions** also see house as any one of the **28 divisions of the moon's monthly path** [Middle English, a dwelling, from Old French, from Latin *mansio*, *mansion-*, from *mansus*, past participle of *manere*, to dwell, remain].

The names of the stars date back hundreds or even thousands of years, and after the collapse of the Greco-Roman civilization, this knowledge was preserved by the Arabs. During the Renaissance, the Europeans adopted many of these names and terms from the Arabic sources, which is why a majority of star names are Arabic in origin. In 1603, German astronomer Johann Bayer (1572-1625) instituted a system of assigning Greek letters to stars (Bayer designation), consisting of a lowercase Greek letter followed by the genitive name of the constellation. The letters are usually assigned to the stars in the order of their brightness within a given constellation.

[To see how the earth orbits the sun in relation to the constellations.](#)

LUNAR MANSIONS (12th Century AD)

In the esoteric side the concept of **lunar mansions** was not known in Europe. These **mansions** developed more in Indian divination around the mid 5th century B.C., as the Hindu **nakshatras** or **Nakshatrani**.

Recently a friend who studies the subject quite thoroughly enlightened me to the Chinese version: in (Mandarin) Chinese as **HSIU** (in the Wade-Giles system of romanization), or as **XIU** (in the Pinyin system of romanization, used in mainland China). The term means "**a halting place**," or as a verb, "**to lodge for the night**."

The Arabs called them "**Manazil al-Qamar**," to date they use the Crescent Moon symbol for their religion and a Lunar calendar. The Babylonian Moon God Sin was the supreme deity in the Near East prior to the Christian and Islamic periods.

Each mansion is 12 degrees 51 minutes and 26 seconds, and are divided into four groups of seven mansions, starting at 0 degrees of each Cardinal sign. The positions start at the Vernal Equinox (the Aries point) using the tropical (Western) zodiac, not sidereal, but were originally derived from the sidereal positions.. The [Arabic names are sometimes derived from zodiacal constellations](#) found in the mansions, e.g. the Lion's Glance, Forehead and Mane are found in Leo, the Claws in Libra relate to Scorpio, the Sting is found at the end of Scorpio and the Belly of the Fish at the end of Pisces.

The planetary rulers are those for the days of the week. The whole list repeats every four weeks, as each mansion covers the average daily motion of the Moon.

Wisdom and Understanding

Through the blazing altar to the Holy Place. Turn around and look about there will be 12 gates. Three, six, nine, twelve. I show you a way of **unity** by the Spirit you will tell. You are returning to the tabernacle to finish what you have started that gives the rest of the story for creation's honor. A cosmic connection will lay out the restoration to open and shut for **ju** in the regeneration. This is how it was meant to be so my people will leave the distortion and heal their belief. All of creation speaks of my divine nature. My eternal power. This is the new creation. To put back that which was lost in the original design. For I paid the cost and all may enter into lo holy place. Now follow the river from my throne it follows my power and my grace. And they will go out noisy as men. The Lord at their head, the regeneration again. And those who follow the way, you too will sit on thorns in the Millennial reign. Connect the Mazzaroth to each tribe. Each attribute will reveal my kingdom design.
