

Chariots of Fire

Chariots of fire – where I feel horses. It feels like two effervescent spots on either side of me head in the middle. It became more specific on 7/15/16. See Words from the Lord

II Kings 2:11 Then it happened, as they continued on and talked, that suddenly a chariot of fire *appeared* with horses of fire, and separated the two of them; and Elijah went up by a whirlwind into heaven.¹

II Kings 6:17: And Elisha prayed, and said, “LORD, I pray, open his eyes that he may see.” Then the LORD opened the eyes of the young man, and he saw. And behold, the mountain *was* full of horses and chariots of fire all around Elisha²

Psalms 68:17ff- note deliverance is mentioned after chariots of fire. It seems chariots rescue parts.

Isaiah 66:15

For behold, the LORD will come in fire And His chariots like the whirlwind, To render His anger with fury, And His rebuke with flames of fire.

For behold, the Lord will come with fire And with His chariots, like a whirlwind, To render His anger with fury, And His rebuke with flames of fire.

Travel through the cosmos on chariots

I could feel that my two eyes were going out to the left and right and we had a discussion about perception on 2/9/17. We were located in the ungodly width. The Lord has us take the chariots of fire to the ungodly width to rescue us.

2/20/17 seem to rescue parts – Vicky client

August 7, 2017

On Saturday, August 5, 2017 while Larry Pearson was speaking in the afternoon I kept feeling the Chariots of Fire.

On the way to the client's appointment Larry and I felt a new Apostolic order opening up and then I felt billions of fiery chariots being released. It felt like swarms of chariots

Today during a prayer session, we started the deliverance but and started praying prayers but I soon realized she was not the prayer the prayers. The deliverance became more and more intense and then I felt the fiery chariots. I also felt the deliverance shift to I Am. About 2 or so hours into the 6 hours she said she had a memory of being around the age of 3. I asked to talk to the 3 year old and she immediately began speaking and parts continues to speak until the end of the 6 hours. She was mostly co conscience during the time. After we had processed a molestation she shifted to an older age with more memories and then a later age with more memories. It seemed clear to me that the chariots of fire had rescued parts with memories. Just before this process had started I felt the Lion of Judah show up. The client and her husband, a pastor, saw the lion. He began roaring and the deliverance intensified. At one point my right thigh (authority) began burning and she said the lion had put his paw on my right thigh. The intensity of the deliverance while the Lion was present was astonishing. also during the session I could feel the cross very strongly. The client saw the cross laid flat in front of her. It was clear the deliverance was going through the cross. The pastor got the verses in Colossians 2 – being nailed to the cross.

The client has a PhD in psychology but had never worked through these memories. She has been basically bed ridden for months in constant pain. The deliverance remained strong until I went to bed at the Hampton at the Toronto airport. She seemed much better that evening.

Rob Gross Dream
October 11, 2018 (Chariots of Fire)

In the first scene of this dream my wife Barbara and I were descending from a very high place (the heavenly places) to a huge golf course resort below. As we traveled downward I wanted to take a picture of the incredible view (revelation) below (I could see the resort club house, a large putting green, a lake and the golf course itself) but we did not stop.

In the second scene we eventually got to the bottom of the hill (where the people were) and found ourselves traveling on a road in a golf cart. Our youngest son Jonathan (generational legacy) was in the golf cart with us. As we drove forward we passed through a neighborhood (families) that was adjacent to the golf course. Eventually we came to a large warehouse (the Church) and found ourselves inside. The warehouse was completely empty and we were putting golf balls (scattered parts?) on the warehouse floor. We finished putting (putting has to do with finishing while driving the golf ball off the tee has to do with starting) and got back in our golf cart and turned around and headed back the way we had just come. As we drove forward we saw on the right side of the road a small area containing some beautiful tiny vacation homes.

We stopped by an information stand that contained brochures about the homes. Apparently this tiny enclave of homes could be rented for \$20/ night.

In the third and final scene we found ourselves walking in front of a grandstand area on the resort that was full of people. We passed by a father who was telling his family to be careful 'not to trust' anyone. I then looked up and outward across the lake that was in front of the grandstand and I saw a large rescue helicopter (a chariot of fire) coming toward us in the air. As it came closer I noticed along with all the other people that (the helicopter was on fire). At that moment I thought the helicopter would crash into the lake but it passed overhead, turned around and went back the way it had just come. It then flew back towards us. Still on fire I thought it would crash again but this time into those sitting on the golf grandstand. But, once again, it flew over head. The dream ended.
