as I just went through the email conversation with you again, trying to connect your answers to my mails, I felt and saw this ring around the globe again. It is the spiritual system we have been talking about. It looks like a circular neon light that is wrapped around the globe. These neon light usually have one or two ends of the tube where it gets very thin and is closed, connected to electricity. One of these ends goes into the earth/globe and deeper and deeper into darkness and the deep. I believe that people/human spirits and evil travels on and through it A LOT! There seems to be a lot of evil trading. I think I see the image of Obama over this neon ring somewhat, like a big over human projection over the earth like a God. The other end of this neon tube goes to space, to the moon, to the stars etc. There is some strong exchange and unrighteous traveling happening there as well. There seem to be strong agendas that are carried through this traveling and have to be carried out in order for this system to stay in place and not stop and break. I wonder if this is a spiritual highway that exchanges, trades and travels between the deepest place of the deep and dark and the highest heights and stars. The connection to the moon I think is somewhat like an electric grounding.

I saw a part of this already yesterday but today more. When I saw it yesterday it came to my mind what I saw when you and Rich were in Uzbekistan. I'm talking about all these complex layers of protection you have where the lock and key and codes change all the time. I feel it strongly while I write it and notice this has gotten even more complex, changing codes and keys a lot fast and a lot of new stuff has been inserted and I believe new layers have been added. I have the feeling there is a connection between your safety and protection system and the ungodly system. I'm not certain what it is...
